

Mayowood Lake Nordic Ski Trail Map

Mayowood Lake is located on Mayowood road not far from the junction with the Salem Road (CR 25). Only access is to go west on CR 25 and turn south on Mayowood road. The lake will be on your right side. Note that the bridge has been permanently closed to traffic, so you cannot access the lake from the Mayowood road. Park on the hard shoulder (on either side of the road) beside the lake. You can also park about 100 feet closer to the Salem road at the trailhead for the bike trail.

The trail map below shows the usual route that people have skied in on the lake and river. Going further upriver depends on ice conditions. In very cold weather, and with enough snow, it is possible to go 1/2 mile or more upriver. There is no grooming on the lake, so skiing there works best when we have a snow base of 1" - 3".

How to get there - Mayowood Lake

Mayowood Lake Ski Trail
