Comments: Saturday (March 1) under bright sunshine, midday temps rose to the mid twenties and changed the morning's cold aggressive snow into a fairly fast packed powder that provided a great way to usher in the month of March. Any tendency toward icy conditions has disappeared following Thursday night's snowfall, and despite Saturday's sunny skies, sticky conditions did not develop.

Comments: I skied the Drummond ski trails today. Conditions are very good. Although we have not scarified the old snow and mixed it with the inch or so of new snow, tracks are in excellent shape. Waxless skis worked great, however the wax I used for the Kortelopet on my waxable skis gave plenty of grip.

New Snow in inches: 0 "  
 Most Recent Grooming: 2/22/08  
 Conditions: Fair

Km groomed for Classic: 23  
 Km groomed for Skating: 23

Comments: This trail varies in difficulty with plenty of easy skiing in the first loop and the west half of the upper loop. Portions of the upper loop and cutoffs on the east side of the

lower loop provide more challenge for the advanced and expert skiers. There is a three-sided shelter with a fire ring provided as a warming shelter on the west side of the upper loop. Flambeau River State Forest, 715-332-5271.

**Events:** It snowed about an inch Wednesday. Conditions are icy due to warm weather the past weekend. The 2.7km Squirrel Tail trail is temporarily closed due to active logging operations to salvage timber damaged in a 2006 wind storm. It is anticipated the trail will be closed until early- or mid-March. Skiers are being detoured onto Pinery Grade trail, which is groomed for two way skiing.
